

## QUALITY POLICY

It is the company policy that our requirements for high standards of quality service are recognised by our suppliers and customers.

The company acknowledges that the maintenance of quality standards in our work is the keystone to our success, reputation and future satisfaction of our customers and staff.

We confirm that we aim to achieve a standard that complies with or exceeds, contractual and legislative requirements and that continually improves in effectiveness. The ethos of risk management is paramount to the success of our company and to that of our customers.

We strive to maintain our management system to the standard of ISO 9001:2015.

The Quality Manager is responsible for ensuring that risks and opportunities are identified and measurable objectives for the management system are established and reviewed at company meetings. This policy is also reviewed at those meetings.

***It is the responsibility of all company staff to understand and conform to the requirements of this philosophy and its associated procedures.***
